GROHE

Pure Freude
an Wasser

SAVE WATER

The electronic faucet only delivers the water required, minimising waste with seven possible settings, it can also be further tailored to meet the needs of the project and its users without wasting a drop.

SAVE ENERGY

The Powerbox is the most efficient power harvester in the business, with a storage capacity that allows 100 hours of use from just 260 seconds of water flowing. No energy from the mains is required so no electricity bills to pay.

SAVE MONEY

Requiring no mains electricity to run will cut bills, but the design also saves on running costs as well, it operates maintenance-free for ten years, and is simple to install from the start.

GROHE is Europe's largest and the world's leading single-brand manufacturer and supplier of sanitary fittings.

Quality, Technology, Design and Sustainability. Four brand values that illustrate Grohe's commitment to creating exceptional experiences.

Grohe set their standards high to ensure that every time you turn on GROHE tap for step into a Grohe shower you can feel the difference.
